

Mr. Stanton's Dispatches.

WASHINGTON, May 10—P. M.—Maj. Gen. Dix: No intelligence has been received by this Department from the Army of the Potomac since the dispatch of this morning.

A dispatch from General Sherman, dated at Tunnell Hill 7.30, P. M. yesterday, states that Mc. Pherson had not attacked the enemy at Resacca, having found their position strongly fortified, and had taken his position at Snake Root Gap.

Gen. Sherman was in front of Buzzard's Roost Gap, waiting the arrival of a part of his forces. This dispatch came by the way of Knoxville and Cumberland Gap, having been delayed over twenty-four hours, in consequence of a heavy storm that broke down all the lines south of Nashville.

No intelligence has been received to-day from General Butler's command, except that 300 Rebel prisoners, including one negro had arrived at Fortress Monroe from City Point, in charge of a negro guard.

From Bink's command nothing of a recent date has been received.

Signed, E. M. STANTON, Secretary of War.

WASHINGTON, May 11.—To Major General Dix: Dispatches from the Army of the Potomac have just been received here, bearing date up to five o'clock P. M. of yesterday. Both armies at that time held their positions at Spottsylvania Court House without material change. The enemy had been driven to their breastworks, and the sixth corps under General Wright, had carried the first line of the enemy's rifle pits.

There had been heavy skirmishing during the day.

Our wounded have reached Fredericksburg, and during the night some were brought up to Washington.

The Surgeon General reports that ample supplies of nurses and medical stores have gone forward.

There has been nothing heard from General Sherman or Gen. Butler since my last dispatch of yesterday. Signed, E. M. STANTON, Secretary of War.

ARTIFICIAL CHEOPLASTIC BONE TEETH
WITHOUT METAL PLATE OR CLASPS.

DRS. SIGESMOND & HAYWARD,

250 Pennsylvania avenue, between 12th and 13th streets, Washington, D. C.

CALLS the attention of the public to the following advantages of his improved system:

1. The Teeth of their manufacture will never corrode nor change color by any acids, being three-fourths lighter than any other.

2. No teeth or roots need be extracted, as the artificial ones can be inserted over them.

3. The roots will be made inoffensive and never to ache.

4. No temporary teeth are needed, as permanent ones can be made immediately, thereby preserving the natural expression of the face, which under the old system is frequently disfigured.

5. This work has been fully tested over five years by many of the first chemists and physicians of this country.

Drs. S. & H. have also invented a white undestructive metal filling, with which the most sensitive teeth can be filled without pain, and can build up a perfect sound tooth on any side roots, which will last through lifetime.
